

Teaching Assistant Volunteer

Position Summary

As a Teaching Assistant, you will learn and share your expertise in carpentry, plumbing, home electrical, home repair, and creative reuse. TA's assist instructors and help students develop best practices, primarily related to shop safety and basic carpentry and electrical tools and techniques. Teaching Assistants work directly under the supervision of the instructor during ReBuilding Center classes.

Primary Responsibilities

- Help instructors set up and prepare any necessary tools and materials before class
- Help instructors clean up and organize equipment after class
- Greet and assist students with sign-in
- Ensure students are using tools safely and responsibly
- Work with students one-on-one to ensure that they're following instruction and completing class tasks
- Assist instructors with other duties as needed

Qualifications

- Must be 18+ years old. Ability to lift 30+ lbs
- Can learn quickly and adjust to an ever-changing work environment
- Great interpersonal and teamwork skills
- Experience and/or desire to work with people from diverse backgrounds
- Familiarity with carpentry, plumbing, home repair, and electrical tools and techniques
- Self-motivated, reliable, and able to work with a team
